

SEAWAYS CREATES RECORD IN CARGO HANDLING AT PARADIP PORT

Seaways Shipping And Logistics Limited has yet again created a record in coal unloading at Paradip Port. The company's Paradip team discharged 62,759 metric tonnes of coal in 24 hours breaking its erstwhile record of 52,000 tonnes in the same port.

Seaways handled this coal shipment for its customer M/s Jindal Steel & Power Limited. The unloading process from the bulk cargo vessel *MV Pacific Energy* commenced at 16:50 hours on January 5, 2017 and four harbour mobile cranes (HMC) were deployed for this operation.

This achievement further reiterates Seaways' competency in stevedoring operations and positions the company as one of the top stevedoring service providers in India capable of handling challenging stevedore assignments.

Seaways commenced bulk cargo operations in Paradip Port in 2015 and has established itself as a reliable logistics partner in a short duration by bagging contracts from some of the reputed customers using this port.

About Seaways Group

Seaways is one of the largest integrated logistics service and solutions providers in India and offers complete range of logistics services across the globe.
